CAREER SUMMARY

Full Stack Web Developer with a background in EMS who has a strong drive to learn new technologies, and programming skills. Dedicated to using creativity, problem solving, and critical thinking skills to develop user-friendly applications. Looking to join a team to help solve challenges using my abilities to program, handle stressful situations, and ability to adapt to any circumstance.

Technical Skills

HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express.js, React.js, Node.js, My SQL, MongoDB, Git
Handlebars.js

Projects

Moonlight [Live Demo](#) | [Github Repo](#)

- Connects Clients and Free-Lance Web Developers via Client job postings that developers can respond to
- One of two developers who shared responsibility in creating front-end and back-end project
- Developed to be responsive and compatible on all screen sizes, and browsers
- Utilized React for front-end development, including React Context
- Created with MongoDB, Express, React, Node, Material-UI, Web tokens, Passport Authentication, MVC model, Ajax, Axios, API

Buzz happy [Live Demo](#) | [Github Repo](#)

- Application that showcases use of user authentication as well as cocktail recipe search and recipe creation functionality
- Lead Developer of a group of three
- Created using Javascript, jQuery, REST, API, Express, My SQL database, Node, Materialize, Handlebars, CSS, MVC model, and Passport Authentication

HandleBars Eat-A-Burger [Live Demo](#) | [Github Repo](#)

- Burger logging application where you can create and “devour” burgers
 - Developed individually utilizing Javascript, jQuery, Express, My SQL database, Node, HandleBars, Bootstrap, CSS, and an ORM
 - Created and designed using MVC model
-

PROFESSIONAL AND PERSONAL ACCOMPLISHMENTS

- In less than 3 months time, went from creating web applications with just html/CSS, to coding full stack web applications that meet client specifications in under 2 weeks
 - Created, maintained, and enforced front-end/back-end code, and documentation standards for more than 15 projects in less than a 3 month period
 - Created, and managed scheduling system for an entire EMS agency, increasing yearly budget by 10%
 - Implemented new hiring process for an emergency services agency that lead to the hiring of 5 employees that were promoted to supervisor in less than 12 months
 - Provided one-on-one mentoring for 50+ emergency services employees based on individual needs. Improved employees ability to effectively communicate with the public and with various response agencies in a diverse environment
 - 2018 ASU Moeur Award Recipient - Less than 2% of May 2018 graduating class received this award (15,000 + graduates)
-
